WORK EXPERIENCE

Prompt, USA | Remote FEB 2023 - PRESENT
Senior Full Stack Engineer

- Led full-stack development of web applications using Django, VueJs and React.js.
- Designed and developed RESTful APIs for seamless integration between frontend and backend.
- Implemented cloud-based solutions using AWS for deployment and scaling.
- Improved application performance and security through best practices and code optimization.

Homie, India | Remote SEP 2021 - Jan 2023
Full Stack Engineer

- Developed scalable backend services using Django and DRF
- Built responsive user interfaces with JavaScript and TailwindCSS.
- Managed CI/CD pipelines for automated deployments.
- Used Celery as task queue, Amazon SQS as messaging broker to execute asynchronous tasks.

Macrosoft Labs, Slovakia | Remote JUN 2020 - AUG 2021
Full Stack Developer

- Designed and implemented REST APIs using Django DRF
- Developed interactive UI components using React.js and Vue.js.
- Handled the entire lifecycle of projects from design to deployment.

ZayRide, Ethiopia | Part-time DEC 2019 - JUNE 2020
Full Stack Developer

- Designed and developed the backend API of a ride-hailing app.
- Ensured high performance through efficient db management.

Med Innovations, Addis Ababa Jan 2019 - JUNE 2020
Android + Full Stack Developer

- Designed and developed an Android app for a luxury restaurant.
- Helped other teams in BE(Node) & FE (ReactJs)
